Policy Statement:

Marks & Spencer are committed to providing foods which do not contain Genetically Modified (GM) ingredients or derivatives.

Our definition of ingredients and derivatives covers any substance, including additives, used in the manufacture or preparation of a product which is still present in the finished product, even if in altered form.

Processing aids, including food enzymes are out of scope.

For EU authorised GM presence a threshold of 0.9% for adventitious or technically unavoidable contamination is applied.

Unauthorised EU presence is not permitted at any level.

Scope:

Applies to all Marks & Spencer own label food, drink and pet food products.
